2. Loss of life, personal injury or damage to property resulting from the failure of the portion or portions of Utility facilities located on or above the property of the Commission.

S101. **Authorization**—Where maintenance work on Utility facilities is anticipated in advance and when such work would necessitate entrance of maintenance forces upon the right-of-way, the Commission shall be notified in advance, in writing, of the location and time of accomplishing the work. In the event of emergency work the Commission shall be notified at the earliest possible moment of the location of the work and at that time all pertinent facts concerning the emergency shall be given. Such notification shall not be cause for delaying the necessary emergency repair work.

S102. **Access to Utility Facilities**—Because of the traffic hazard created, the servicing of Utility facilities from the shoulders or median of the Toll Highway is undesirable and will not be tolerated except in instances where there is no other solution or reasonable alternative. It is anticipated that such situations will be rare and request from Utilities for authority to use the shoulders or median for such purpose will be thoroughly examined before authority is granted.

S103. Maintenance of Facilities Crossing or Paralleling the Toll Highway—All Utility facilities within the right-of-way and all structures supporting such facilities whether located within or outside of the right-of-way shall be maintained in good repair by the respective Utility, so as to comply with the regulations of the Commission, or any other body having legal jurisdiction over said facilities.

S104. Maintenance of Toll Highway Traffic—The traveled portion or the shoulders of the Toll Highway shall not be removed or disturbed, and Toll Highway traffic shall not be unduly interfered with or delayed for the installation of Utility facilities, or for the repair or maintenance of such facilities after the construction of the Toll Highway is completed.

S105. Safety Precautions—In the event construction of new facilities crossing the Toll Highway is authorized by the Commission or in the event servicing of existing facilities becomes necessary, it shall be the responsibility of the Utility to take all possible precautions to safeguard traffic traveling on the Toll Highway or entering or leaving the Toll Highway at interchange points; all regulations of the Commission with regard to traffic safety shall be strictly adhered to.

S106. Replacement of Landscaping—Should the trimming of trees, the destruction or removal of trees, shrubs or other landscaping within the Toll Highway right-of-way be found necessary in the servicing of existing facilities or during the installation of new facilities, prior written authorization shall be obtained from the Commission and the work as authorized shall be carried on, under supervision, in strict accordance with those regulations and any conditions as may be prescribed by the Commission, except that in no event will the Utility be restricted to less than the normal clearances established by the original permit. Holes left by stump removal shall be backfilled. If required by the Commission the Utility shall replace in kind, sod and shrubbery and make reasonable replacement of trees or other landscaping features.

Any landscaping in the vicinity of overhead wires will be restricted to shrubbery and low growing trees which will not result in future interference with Utility facilities.

S107. Waste Disposal—All discarded material, equipment or supplies of any Utility shall be removed from the right-of-way site and disposed of outside of the right-of-way unless disposal within the right-of-way is specifically authorized by the Commission. Such disposal, when authorized, shall be made at such location and in such manner as the Commission may designate.

S108. Condition of Highway after Utility Work—After a Utility has completed work at a location the Utility shall restore all portions of the Toll Highway to a condition at least equal to that which existed prior to the start of work.

COMMITTEE ON POLICE, FIRE, CIVIL SERVICE, SCHOOLS AND MUNICIPAL INSTITUTIONS.

WRITTEN REPORT BY COMMITTEE CHAIRMAN UNDER COUNCIL RULE 45 AS TO STATUS OF PENDING PROPOSED RESOLUTION.

Alderman Biesczat submitted the following report, which was ordered published in the Journal:

CHICAGO, June 24, 1960.

To the President and Members of the City Council:

At the written request of the Alderman of the 50th Ward and pursuant to Rule 45 of the Rules of Order of this City Council, I report to the Council in regard to a resolution introduced on March 3, 1960, relating to revision of the Civil Service Code of Chicago, and referred to the Committee on Police, Fire, Civil Service, Schools and Municipal Institutions, the following:

As Chairman of that Committee I have had preliminary discussions with the former Chairman of the Civil Service Commission and with its present chairman, as well as with the Corporation Counsel. They have confirmed my original thought that the resolution calls for a careful and perhaps laborious investigation and analysis. Also, consideration of the resolution should be coupled with recommendations that the Superintendent of Police has indicated would be forthcoming from him in the future with regard to a special civil service or so-called merit plan for the Police Department. Because of the complexity of the matter, I have concluded to appoint a subcommittee and to request that the Corporation Counsel assign one of his assistants to advise the subcommittee and perhaps supplement that by special counsel to be employed by the Committee.

I am confident that by that time the Committee, of which I am Chairman, will have given careful and deliberate attention to this resolution and will have recommended a course of action of benefit to the City of Chicago and that will be fair to its employees.

Respectfully submitted,
(Signed) MATHEW W. BIESZCZAT.
Committee Chairman.

Felicitation extended to Amalgamated Clothing Workers of America, and Employers, on 50th Anniversary of Achievement of Collective Bargaining.

A proposed resolution reading as follows:

WHEREAS:
1. 1960 marks the 50th anniversary of the 1910 Chicago strike of 40,000 men's clothing workers, which resulted in the birth of Amalgamated Clothing Workers of America, now a great international union with more than four hundred thousand members, devoted to promoting the general welfare and building a better America.
2. The 1910 Chicago strike and the resulting fifty years of strike-free agreements with Hart Schaffner and Marx, a great clothing manufacturer, initiated advances in industrial democracy which have been carried on with the original partners of Hart, Schaffner and Marx and now continuously for more than thirty years with its president Meyer Kestnbaum and have won widespread adoption throughout the nation—industrial arbitration, the permanent impartial trade board, unemployment and social benefit insurance, and union-management cooperation based on genuine mutual respect and self-confidence.
3. The 50th anniversary recalls to mind the 1910 efforts of distinguished Chicagoans to help Chicago clothing workers bring an end to the former system of sweatshops—Jane Addams, Ellen Gates Starr, Louise DeKoven Bowen, Mrs. Raymond Robbins, George H. Mead, Sophonisba Breckinridge, Jenkin Lloyd Jones, John Fitzpatrick and Edward N. Nockles; the contributions toward industrial statesmanship made by Chicagoans Clarence Darrow, William O. Thompson, Charles E. Merriam, Joseph Schaffner, Carl Meyer, Earl Dean Howard, James Mulllenbach, John E. Williams, and Harry A. Mills; and the courage of the Chicago clothing workers themselves, which made possible the formation of Amalgamated Clothing Workers of America, including the following 1910 Chicagoans who are even now marking fifty years of uninterrupted service to Amalgamated Clothing Workers of America and its labor banks and insurance companies—Samuel Levin, Anzuino D. Marimpietri, Jacob S. Potofsky, Frank Rosenblum, and Bessie Abramowitz Hillman, widow of Sidney Hillman, first president. Now, therefore,

Be It Resolved by the City Council of the City of Chicago, That the City of Chicago halls Amalgamated Clothing Workers of America and the employers in the men's clothing industry on their fiftieth anniversary; extends wishes for many more decades of great contributions to the general welfare; and congratulates the parties on their outstanding success in achieving for a half century the "just and lasting settlement of the points in controversy" hopefully called for by the unanimous resolution of this City Council passed during the 1910 clothing workers' strike.

AGREEMENT OF LIMITED AGENCY.

This Agreement, made and entered into by and between the DEPARTMENT OF AERONAUTICS OF THE STATE OF ILLINOIS (hereinafter referred to as "Department"), for and on behalf of the State of Illinois, party of the first part, and CITY OF CHICAGO (hereinafter referred to as "Municipality"), party of the second part,

Witnesseth:

Whereas, the Municipality has undertaken the improvement and betterment of a public air navigation facility, known as Chicago-O'Hare International Airport, and pursuant thereto has sponsored various projects under the Federal Airport Act; and

Whereas, the Municipality desires to sponsor a further project for the improvement of said Chicago-O'Hare International Airport, to be known as Project No. 9-11-012-6012, and to the Federal Airports Program and the provisions of the Federal Airport Act and the regulations promulgated pursuant thereto; and

Whereas, the Municipality has accordingly requested Federal financial assistance in the accomplishment of said Project No. 9-11-012-6012 and pursuant thereto the Federal Government through the Federal Aviation Agency has issued to the Municipality a tentative allocation (or allocations) in the sum of One Million Thirty-Seven Thousand Four Hundred and No/100 Dollars ($1,037,400.00) Project No. 9-11-012-6012; and

Whereas, the Municipality has appropriated certain monies for the improvement of Chicago-O'Hare International Airport; and

Whereas, the Municipality has requested the Department to act as its agent in certain matters connected with said Project No. 9-11-012-6012 pursuant to statute; and

Whereas, the parties hereto by this Agreement intend (a) to fix their respective responsibilities, with reference to each other, with reference to the accomplishment of said Project No. 9-11-012-6012 and with reference to participation by the United States, and (b) to designate the parties to accept, receipt for and disburse all funds and payment of the Federal Government and of the Municipality used or to be used in payment of the costs and expenses as shall have been incurred by the parties hereto or either of them;

Now, Therefore, for and in consideration of the benefits which will accrue to the parties hereto by virtue of this Agreement and the respective covenants herein contained, it is mutually covenanted and agreed as follows:

1. The Municipality shall be the "Sponsor" of the Project above identified as Project No. 9-11-012-6012, except as set forth in paragraph 2 immediately hereafter following:

2. The Department shall contribute to and sponsor the accomplishment of Project No. 911-012-6012 by its rendering and furnishing of certain engineering services as follows: Design check; processing and approval of Engineers' payment estimates and change orders; general project construction supervision.

3. As between the Municipality, the State of Illinois, and the United States, the Municipality shall be the contractual party to such construction contract or contracts as shall be entered into for the accomplishment of Project No. 9-11-012-6012 subject only to the agency provisions hereinafter set out.

4. The Municipality shall furnish or cause to be furnished in addition to plans, specifications and estimates of cost, project supervision, engineering and necessary materials testing technician(s) acceptable to the Department and shall provide such project reports as shall be required by the Federal Aviation Agency or the Department, and shall further provide a semifinal and a final inspection report on the project work (or, if more than one construction contract is involved, then on each phase of the project work which is covered by separate contract) to the Department, and in conjunction with such final inspection report or reports shall
certify to the Department that the work involved has been fully completed in accordance with the plans, specifications and contract, and same shall have been approved or supplemented by change order, supplementary contract, or otherwise, and that such work is accepted.

5. The Municipality hereby designates the Department as its Agent, and the Department hereby accepts said designation to act as Agent for the Municipality:

8. All construction or development work on the said project shall be subject to the General supervision or direction of the Department.
   The Municipality shall, pursuant to Section 38.01 of the Illinois Aeronautics Act, establish and maintain accounts specially designated in which shall be deposited all funds pertaining to the project. The Municipality shall have the right to draw checks against said account, or make withdrawals therefrom, without the approval of the Department, and the bank or banks in which said funds are deposited shall be under no obligation to see to the application of said funds.

9. The Airport shall be used, operated and maintained at all times by the Municipality for the use and benefit of the general public without unjust discrimination, in accordance with all applicable Federal and State laws and the rules and regulations prescribed thereunder and in accordance with the covenants and assurances of the Municipality made with and to the United States.

10. The Municipality shall file with the Department such reports concerning the matters covered by this Agreement, including the use, operation and maintenance of the Airport, as the Department may require from time to time.

11. Notices, reports or other communication required by or transmitted pursuant to this Agreement, to the Department, shall be directed to the attention of the Director of Aeronautics, Department of Aeronautics of the State of Illinois, Capital Airport, Springfield, Illinois.

12. To the extent that the Project Application or Grant Offer requires, this Agreement is made subject and subordinate to the provisions thereof.

13. This contract shall be and is deemed to be one entered into pursuant to the Illinois Aeronautics Act of the State of Illinois, and shall be construed and given effect in accordance with said Act and not otherwise.

At the southern boundary of the project, 31st Street will be widened from the existing south right-of-way line, from a 66 foot to a 100 foot right-of-way. Widened 31st Street will serve as a limited access major thoroughfare connecting the Outer Drive at the eastern terminus of 31st Street with the south route of the Expressway about three-quarters of a mile west of the project.

<td></td>
</tr>
</tbody>
</table>

200,000 sq. ft. of floor area and 1 extra space for each additional 200,000 sq. ft.
2. Controls on Redevelopers

The respective owners of, and other parties interested in, properties lying within the project site not acquired by the Commission will be required to covenant with the Commission, by means of a written agreement, to restrict said respective properties to the particular uses set forth in the approved Redevelopment Plan. The Restrictive Agreement will provide that said covenants shall run with the land for a period of forty (40) years from the date of City Council approval of the first land disposition in the project area. These covenants and agreements shall be enforceable by the parties thereto, and their successors in title and possession.

The redevelopers, their successors or assigns will be required by contract to observe all provisions of the Redevelopment Plan, including land use controls, for a period of forty (40) years from the date of City Council approval of the first land disposition in the project area. Also, they will be required to submit a redevelopment progress schedule satisfactory to the Commission. It is anticipated that redevelopers will not be permitted to defer the start of construction for a longer period than required for the submission of architectural plans to the Commission for the latter’s determination as to conformance to the Redevelopment Plan. Generally, this work should be completed within six to nine months.

After any portion of land is disposed of, the Land Use Plan, Exhibit 1, may be modified only upon the written consent of the then property owners directly affected by the proposed modification. The contract with the redevelopers will include prohibitions against land speculation.

F. OFFICIAL ACTION NEEDED ON LOCAL CODES, ZONING, AND RIGHTS-OF-WAY ADJUSTMENT

City Council action will be required to rezone the land, as shown on Exhibit 2, Zoning map. Action by the City Council will also be required for the vacation by the City and dedication to the City of portions of certain streets as shown on Exhibit 3, Rights-of-Way Adjustment map.

The City Council action which will be required in connection with the zoning referred to above, will be requested by the Commission shortly before conveyance to the redeveloper of the land involved. The Council action required in connection with street vacation and dedication will be requested by the Commission shortly before the physical changes are made.

3. Changes in Major Rights of Way

South Park Way will continue to serve as a major thoroughfare for two-way traffic. Michigan and Indiana Avenues will continue as paired one-way streets. State Street is proposed to be widened from a right-of-way of 100 feet to a right-of-way extending eastward to the Chicago Transit Authority elevated structure. With the proposed State Street right-of-way extending from 207.5 to 222.2 feet in width, it can more adequately serve large volumes of traffic. Twenty-sixth Street will also be widened to the south from a right-of-way of 66 feet to 100 feet, so that it may serve more adequately as one of the City's major thoroughfares.

E. CONTROLS ON REDEVELOPMENT

1. Controls on Land to be Used for Residential and Related Purposes

The controls applicable to the part of the project to be used for residential, school and playground, and shopping purposes are shown on Exhibit 1A, the attachment to the Land Use Plan.

2. Controls on Land to be Used for Commercial-Light Industrial Purposes

The following controls are applicable to the part of the project to be used for commercial purposes.

1) Ratio of floor area to building site, maximum — 3.0 square feet of floor area to 1 square foot of building site.

2) Off-street parking, minimum—one space for each four employees during peak work period. One space shall be of dimensions not less than 8 by 20 feet.

3) Off-street loading, minimum—one space for 5,000-40,000 square feet; 2 spaces for 40,000-100,000 square feet, and one extra space for each additional 100,000 square feet of floor area or fraction thereof. One space shall be of dimensions not less than 10 by 25 feet.
4) Residential Use

There shall not be any residential use in that portion of the area used for commercial-light industrial purposes.

5) Noxious and Objectible Use

No part of the area shall be used for any purpose which in the determination of the Commission will cause any objectionable noise, odor, vibration, dust, toxic or noxious material, glare or heat from said premises which would create or tend to create a nuisance.

6) Hazardous Use

No part of the area shall be used for any purpose which in the determination of the Commission will create or tend to create a hazard or increase the cost of insurance to owners of any other property in the area.

7) Storage or Disposal of Refuse

There shall not be any on-site storage or disposal of refuse other than that permitted by City Ordinance.

8) Screening of Parking and Storage Areas

Parking and storage areas shall be screened to the extent necessary in the determination of the Commission to conceal stored material so that those areas will not become unsightly to adjacent uses and particularly to users of adjacent streets.

9) Curb Cuts

Curb cuts for all uses except gas stations shall be a minimum distance of 50 feet from a street intersection and have a minimum radius of 15 feet.

3. Controls on all Redevelopers

The respective owners of, and other parties interested in, properties lying within the project site not acquired by the Commission will be required to covenant with the Commission, by means of a written agreement, to restrict said respective properties to the particular uses set forth in the approved Redevelopment Plan. The Restrictive Agreement will provide that said covenants shall run with the land for a period of forty (40) years from the date of City Council approval of the first land disposition in the project area. These covenants and agreements shall be enforceable by the parties thereto, and their successors in title and possession.

The redevelopers, their successors or assigns will be required by contract to observe all provisions of the Redevelopment Plan, including land use controls, for a period of forty (40) years from the date of City Council approval of the first land disposition in the project area. Also, they will be required to submit a redevelopment progress schedule satisfactory to the Commission. It is anticipated that the redevelopers will not be permitted to defer the start of construction for a longer period than required for the preparation of architectural plans and the submission of such plans to the Commission for the latter's determination as to conformance to the Redevelopment Plan. Generally, this work should be completed within six to nine months.

After any portion of land is disposed of, the Land Use Plan, Exhibit 1, may be modified only upon the written consent of the then property owners directly affected by the proposed modification. The contract with the redevelopers will include prohibitions against speculative development.

F. OFFICIAL ACTION NEEDED ON LOCAL CODES, ZONING AND RIGHTS-OF-WAY ADJUSTMENT

City Council action will be required to rezone the land, as shown on Exhibit 2, Zoning map. Action by the City Council will also be required for the vacation by the City and dedication to the City of portions of certain streets as shown on Exhibit 3, Rights-of-Way Adjustment map.

The City Council action which will be required in connection with the zoning referred to above will be requested shortly before conveyance to the redeveloper of the land involved. The Council action required in connection with the vacation of certain streets and dedication will be requested shortly before the physical changes are made.

The City Council ordinance and the Illinois State Housing Board resolution which approved designation by the Commission of Project No. 6 were adopted May 14, 1953 and June 19, 1953, respectively. On February 27, 1958 the Commission by Resolution No. 58-CLCC-57 approved the original Redevelopment Plan dated December 20, 1957. The City Council and the State Housing Board approved that Redevelopment Plan on March 26, 1958 and April 7, 1958, respectively.

The Housing and Home Finance Agency of the Federal Government has determined that the project is eligible for Federal assistance under the terms of the Federal Housing Act of 1949, as amended.

D. LAND USE PLAN

As shown on the attached Land Use Plan, Exhibit 1, this Redevelopment Plan specifies that the land in Project 6D is to be used for community park and residential purposes. The approximate amount of land to be devoted to each use is shown in the following tabulation:

1. Land to be Used for Residential Purposes

The major controls on the land to be used for residential purposes permit the construction of a variety of types of structures. The maximum density permitted is 75 dwelling units per net acres. That control limits the number of units to be constructed to a maximum of 485 dwelling units. This Redevelopment Plan requires that a minimum of 50 dwelling units be constructed.

2. Land to be Used for Recreational Purposes

Seven and nine-tenths acres of the land in Project 6D, together with 12.9 acres in Project 6B, are to be sold to the Chicago Park District for construction of a community park of 20.8 acres adjacent to the Dunbar Trade School.

E. CONTROLS ON REDEVELOPMENT

1. Controls on Land to be Used for Residential and Related Purposes

The controls applicable to the part of the project to be used for residential and related purposes are shown on the attachment to the Land Use Plan, Exhibit 1-A.

2. Controls on Redevelopers

The redevelopers, their successors or assigns will be required by contract to observe all provisions of the Redevelopment Plan, including land use controls, for a period of forty (40) years from the date of City Council approval of the first land disposition in the project area. Also, they will be required to submit a redevelopment progress schedule satisfactory to the Commission. It is anticipated that redevelopers will not be permitted to defer the start of construction for a longer period than required for the preparation of architectural plans and the submission of such plans to the Com-
mission for the latter's determination as to conformance to the Redevelopment Plan. Generally, this work should be completed within six to nine months.

After any portion of land is disposed of, the Land Use Plan, Exhibit 1, may be modified only upon the written consent of the then property owners directly affected by the proposed modification. The contract with the developers will include prohibitions against land speculation.

F. Official Action Needed on Local Codes, Zoning and Rights-of-Way Adjustment

City Council action will be required to rezone the land, as shown on Exhibit 2, Zoning map. Action by the City Council will also be required for the vacation by the City of portions of certain streets as shown on Exhibit 3, Rights-of-Way Adjustment map.

The City Council action which will be required in connection with the zoning referred to above will be requested shortly before conveyance to the developer of the land involved. Likewise, the Council action required in connection with street vacation will be requested shortly before the physical changes are made.

3. Changes in Major Rights of Way

To facilitate widening the right-of-way of Lake Street to 100 feet when such action is otherwise feasible, a 10-foot strip of the project land bordering Lake Street is to be dedicated for street use, as shown on Exhibit 3, Rights-of-Way Adjustment map.
E. CONTROLS ON REDEVELOPERS

Major controls on use of the project land are shown on Exhibit 1, Land Use Plan.

The respective owners of, and other parties interested in, properties lying within the project site not approved by the Commission will be required to covenant with the Commission, by means of a written agreement, to restrict said respective properties to the particular uses set forth in the approved Redevelopment Plan. The Restrictive Agreement will provide that said covenants shall run with the land for a period of forty (40) years from the date of City Council approval of the first land disposition in the project area. These covenants and agreements shall be enforceable by the parties thereto, and their successors in title and possession.

The redevelopers, their successors or assigns will be required by contract to observe all provisions of the Redevelopment Plan, including land use controls, for a period of forty (40) years from the date of City Council approval of the first land disposition in the project area. Also, they will be required to submit a redevelopment progress schedule satisfactory to the Commission. It is anticipated that redevelopers will not be permitted to defer the start of construction for a longer period than required for the preparation of architectural plans and the submission of such plans to the Commission for the latter's determination respecting performance to the Redevelopment Plan. Generally, this work should be completed within six to nine months.

After any portion of land is disposed of, the Land Use Plan, Exhibit 1, may be modified only upon the written consent of the then property owners directly affected by the proposed modification. The contract with the redevelopers will include prohibitions against land speculation.

F. OFFICIAL ACTION NEEDED ON LOCAL CODES, ZONING, AND RIGHT-OF-WAY ADJUSTMENT

All local codes will be complied with in the development.

City Council action will be required to rezone the land, as shown on Exhibit 2, Zoning map. Action by the City Council will also be required for the vacation by the City and dedication to the City of portions of certain streets and alleys as shown on Exhibit 3, Rights-of-Way Adjustment map.

The City Council action which will be required in connection with the zoning referred to above will be requested by the Commission shortly before conveyance to the redeveloper of the land involved. The Council action required in connection with street vacation and dedication will be requested by the Commission shortly before the physical changes are made.

3. Changes in Major Rights-of-Way

To facilitate widening the right-of-way of Lake Street to 100 feet when such action is otherwise feasible, a 10-foot strip of the project land bordering Lake Street is to be dedicated for street use, as shown on Exhibit 3, Rights-of-Way Adjustment map.

F. CONTROLS ON REDEVELOPERS

Major controls on use of the project land are shown on Exhibit I, Land Use Plan.

The respective owners of, and other parties interested in, properties lying within the project site not acquired by the Commission will be required to covenant with the Commission, by means of a written agreement, to restrict said respective properties to the particular uses set forth in the approved Redevelopment Plan. The Restrictive Agreement will provide that said covenants shall run with the land for a period of forty (40) years from the date of City Council approval of the first land disposition in the project area. These covenants and agreements shall be enforceable by the parties thereto, and their successors in title and possession.

The redevelopers, their successors or assigns will be required by contract to observe all provisions of the Redevelopment Plan, including land use controls, for a period of forty (40) years from the date of City Council approval of the first land disposition in the project area. Also, they will be required to submit a redevelopment progress schedule satisfactory to the Commission. It is anticipated that redevelopers will not be permitted to defer the start of construction for a longer period than required for the preparation of architectural plans and the submission of such plans to the Commission for the latter's determination as to conformance to the Redevelopment Plan. Generally, this work should be completed within six to nine months.

After any portion of land is disposed of, the Land Use Plan, Exhibit I, may be modified only upon the written consent of the then property owners directly affected by the proposed modification. The contract with the redevelopers will include prohibitions against land speculation.

G. OFFICIAL ACTION NEEDED ON LOCAL CODES, ZONING, AND RIGHTS-OF-WAY ADJUSTMENT

All local codes will be compiled with in the development of Project Lake-Maplewood.

City Council action will be required to rezone the land, as shown on Exhibit 2, Zoning map. Action by the City Council will also be required for the vacation by the City and dedication to the City of portions of certain streets and alleys as shown on Exhibit 3, Rights-of-Way Adjustment map.

The City Council action which will be required in connection with the zoning referred to above will be requested by the Commission shortly before conveyance to the redeveloper of the land involved. The Council action required in connection with street vacation and dedication will be requested by the Commission shortly before the physical changes are made.

Whereas, Idleness is a promoter of teen-age unrest and many of these teen-agers would welcome the opportunity to apply their talents during the said summer vacation; and

Whereas, All are interested in seeing that opportunities are made available to enable these youngsters to devote their time to constructive activities; now, therefore,

Be It Resolved, That the Mayor make an urgent appeal to heads of the business community, as well as labor leaders, to create job opportunities, if necessary, for teen-agers as their contribution toward solving youth problems; and

Be It Further Resolved, That, inasmuch as the City of Chicago is the largest single employer in our City, the Mayor appeal to the various department heads of the City of Chicago to encourage the hiring of teen-agers during the summer vacation period.

On motion of Alderman Rosenberg said proposed resolution was adopted.

Presented for

ALDERMAN WEBER (45th Ward):

Board of Education Requested to Acquire Specified Vacant Property as Site for New Augustus H. Burley Public School.

A proposed resolution (presented by Alderman Bauler) reading as follows:

Whereas, The Augustus H. Burley School at No. 1630 W. Barry Avenue, in the 45th Ward, was built
in 1873 and additions thereto were constructed in 1885, 1897 and 1907; and

Whereas, The good people of the 45th Ward and their children of grammar-school age are deserving of a better building than the present structure provided by the Board of Education; and

Whereas, Just a short distance from the present site of the Burley School is located the vacant property now sparsely and partially used by the Appleton Electric Company, occupying the premises in the boundaries of W. Wellington Avenue, N. Paulina Street, W. Nelson Street and N. Ashland Avenue; and

Whereas, The present site of the Burley School and its close proximity to the Lincoln-Belmont-Ashland shopping district would indicate its suitability for sale at a very handsome price. The money derived from the sale of the present site and building of the Burley School could pay for the new site at Wellington, Nelson, Paulina and Ashland, and also partially pay for a new, modern school to be constructed on said premises. Also, the removal of the old, sub-standard Burley School from its present location would help the City Plan Commission considerably in its development of the proposed Lincoln-Belmont-Ashland Mall now on the drawing boards in the Plan Commission office; now, therefore,

Be It Resolved, That the City Council of the City of Chicago request the Board of Education through its Real Estate Division to enter into negotiations for the acquisition of the vacant property in the area bounded by W. Wellington Avenue, N. Paulina Street, W. Nelson Street and N. Ashland Avenue in the 45th Ward as a site for the new Burley School.

On motion of Alderman Bauler said proposed resolution was adopted.

INSTRUCTIONS TO BE OBSERVED IN EXECUTING LEASE

1. This standard form of lease shall be used whenever the Government is the lessee of real property; except that when the total consideration does not exceed $100 and the term of the lease does not exceed 1 year the use of this form is optional. In all cases where the rental to be paid exceeds $2,000 per annum the annual rental shall not exceed 15 per centum of the fair market value of the rented premises at the date of lease. Alterations, improvements, and repairs of the rented premises by the Government shall not exceed 25 per centum of the amount of the rent for the first year of the rental term or for the rental term if less than 1 year.

2. The lease shall be dated and the full name and address of the lessor clearly written in paragraph 1.

3. The premises shall be fully described, and, in case of rooms, the floor and room number of each room given. The language inserted at the end of article 2 of the lease should specify only the general nature of the use, that is, "office quarters," "storage space," etc.

4. Whenever the lease is executed by an attorney, agent, or trustee on behalf of the lessor, two authenticated copies of his power of attorney, or other evidence to act on behalf of the lessor, shall accompany the lease.

5. When the lessor is a partnership, the names of the partners composing the firm shall be stated in the body of the lease. The lease shall be signed with the partnership name, followed by the name of the partner signing the same.

6. Where the lessor is a corporation, the lease shall be signed with the corporate name, followed by the signature and title of the officer or other person signing the lease on its behalf, duly attested, and, if requested by the Government, evidence of his authority so to act shall be furnished.

7. Under paragraph 6 of the lease insert necessary facilities to be furnished, such as heat, light, janitor service, etc.

8. There shall be no deviation from this form without prior authorization by the Director of Procurement, except—

(a) Paragraph 3 may be drafted to cover a monthly tenancy or other period less than a year.

(b) In paragraph 5, if a renewal for a specified period other than a year, or for a period optional with the Government is desired, the phrase "from year to year" shall be deleted and proper substitution made. If the right of renewal is not desired or cannot be secured paragraph 5 may be deleted.
(c) Paragraph 6 may be deleted if the owner is not to furnish additional facilities.

(d) If the premises are suitable without alterations, etc., paragraph 8 may be deleted.

(e) Paragraph 9 provides that the lessor shall, unless herein specified to the contrary, maintain the said premises in good repair, etc." A modification or elimination of this requirement would not therefore be a deviation.

(f) In case the premises consist of unimproved land, paragraph 10 may be deleted.

(g) When executing leases covering premises in foreign countries, departure from the standard form is permissible to the extent necessary to conform to local laws, customs, or practices.

(h) Additional provisions, relating to the particular subject matter mutually agreed upon, may be inserted, if not in conflict with the standard provisions, including a mutual right to terminate the lease upon a stated number of days' notice, but to permit only the lessor so to terminate would be a deviation requiring approval as above provided.

9. When deletions or other alterations are permitted specific notation thereof shall be entered in the blank space following paragraph 11 before signing.

10. If the property leased is located in a State requiring the recording of leases in order to protect the tenant's rights, care should be taken to comply with all such statutory requirements.

**Written Reports By Committee Chairman under Council Rule 45 as to Status of Certain Matters Pending in Committee.**

Alderman Keane submitted the following reports, which were ordered published in the Journal:

**CHICAGO, September 9, 1960.**

To His Honor the Mayor and Members of the City Council:

The following report relates to four (4) certain matters pending before the Committee on Finance and is presented in response to request under Council Rule 45 of Alderman Despres of June 10, 1960 (C. J. page 2745):

In the matter of the Resolution regarding the Lake Front Development Ordinance of 1919 introduced in the City Council and referred to a Special Committee composed of the members of the Committee on Finance and the Committee on Utilities on August 24, 1959 (C. J. page 764), the Special Committee has not yet completed its research and consequently is not yet prepared to report.

In the matter of the Resolution regarding Religious Freedom introduced in the City Council and referred to the Committee on Finance on November 4, 1959 (C. J. page 1078), by Alderman Despres and Alderman Sperling; a special Subcommittee was appointed on November 23, 1959, including Alderman Despres and Alderman Sperling. Because of lack of interest in this matter by the sponsors after such appointment this special Subcommittee has not as yet taken any final action or made a report. When such Subcommittee does act and report the Committee will consider and act on the same.

In the matter of a motion of Alderman Despres to amend Section (3) of Subsection F of the proposed "Classification and Compensation Plan for City Employees" on December 23, 1959 (C. J. page 1571), this motion was Tabled and not Referred to Committee, as is shown by the following excerpt from Page 1871 of the Council Journal for December 23, 1959:

"UNFINISHED BUSINESS,

"Classification and Compensation Plan for City Employees Adopted."

"Alderman Despres moved to amend section (3) of Subdivision F of the proposed compensation plan to read as follows:

Any employee or group of employees, acting individually or by a representative, who feels aggrieved in any way by the terms or application of the employment classification plan or the terms or application of any regulation under the employment classification plan, may file a grievance in writing with the department head of such employee or employees. The department head shall promptly set the grievance down for hearing before himself or his regularly designated representative, within one week of receipt of the grievance. The employee or employee involved may appear personally or by a representative. The department head shall make his ruling within one week of the hearing.

Within one week of the delivery or mailing of the department head's ruling, the employee or group of employees, individually or by representative, may appeal in writing to an Advisory Board which is hereby created, consisting of the President of the Civil Service Commission, the Comptroller, the Budget Director, and the Corporation Counsel, or their respective representatives, which shall promptly set the appeal for hearing within two weeks of receipt of the appeal. The appellant or appellants may appear before the Board personally or by representative. The Board shall examine into the reason for the grievance and shall render a decision which shall be final. The Board may prescribe reasonable forms and regulations for grievances, hearings, and appeals.

"Alderman Keane moved to lay the amendment on the table. The motion to lay on the table prevailed, by yeas and nays as follows: ..........................................................

In the matter of a proposed amendment to the Classification and Compensation Plan for City Employees relative to vacations, which was referred to the Committee on Finance on December 23, 1959 (C. J. page 1871), this matter was referred to the Subcommittee on Personnel, of which Alderman Despres is a member. This matter was deferred at the Subcommittee meeting on June 20, 1960, which meeting was attended by Alderman Despres. This matter was again deferred by the Subcommittee on June 30, 1960, because of the absence of Alderman Despres.

The matter of employees' vacations is the subject of special study by the Budget Director with the aid of special consultants and will be considered and reported on during or prior to action on the 1961 Budget.

(Signed) THOMAS E. KEANE,
Chairman, Committee on Finance.
September 9, 1960 REPORTS OF COMMITTEES

To His Honor the Mayor and Members of the City Council:

The following report relates to a certain matter pending before the Committee on Finance in response to request under Council Rule 45 of Alderman Hoellen of June 10, 1960 (C. J. page 2755):

The matter of the ordinance referred to the Committee on Finance on October 22, 1958 (C. J. page 8328) to amend Section 29-5 of the Municipal Code relative to Vehicle License Fees for certain horsepower vehicles, was brought before the Committee during Budget Hearings on November 21, 1958, and was held over on account of the absence of Alderman Hoellen. On August 29, 1959, a special subcommittee was appointed, including Alderman Hoellen, to consider this matter. Because of no apparent further interest in this matter by the sponsor no action was taken by the Subcommittee at the time.

This matter, with related or associated Vehicle Tax problems, will be considered by the Subcommittee prior to 1961 Budget action and will be reported on by the Committee when the Subcommittee completes its research in cooperation with the Committee Staff.

Chairman, Committee on Finance.

Alderman Bissczaz submitted the following report, which was ordered published in the Journal:

To the President and Members of the City Council:

At the written request of the Alderman of the Fifth Ward under Rule 45 (page 3016 of the Journal of the Meeting on July 7, 1960) for a report on a proposed ordinance referred to the Committee on Police, Fire, Civil Service, Schools and Municipal Institutions on April 22, 1959, to amend regulations governing motion-picture censorship, I beg to report as follows:

The said proposed ordinance was the subject of a meeting held by the Committee on May 28, 1959, at which meeting the Committee voted to recommend to the City Council that it Do Not Pass the said proposed ordinance. The report was submitted to the City Council on June 10, 1959, when it was deferred and ordered pub-
established. The report again was deferred on June 24, 1959. At the meeting of the City Council held July 8, 1959, the report was recommitted to the Committee on Police, Fire, Civil Service, Schools and Municipal Institutions. At said meeting of July 8, 1959, the Corporation Counsel submitted a proposed ordinance on the same subject, which proposed ordinance was referred to the Committee on Police, Fire, Civil Service, Schools and Municipal Institutions.

Later, when I was preparing to call a meeting of the committee to consider said two proposed ordinances, it was suggested to me by the Corporation Counsel that no action be taken on the ordinances until there is a final disposition of the suit pending in the United States Supreme Court wherein the constitutionality of the present code relating to the control of permits for the exhibition of motion pictures is involved.

Again on July 20, 1960, the Corporation Counsel suggested that no action be taken on said ordinances until there is a final disposition of the pending case in the Supreme Court of the United States.

Respectfully submitted,

(Signed) MATTHEW W. BIESZCZAT, Chairman, Committee on Police, Fire, Civil Service, Schools and Municipal Institutions.
